

HSSB1424 – Suspect Vehicle Entering Site's

Introduction

- A number of contractor sites across the Southeast have been subject to scrap metal thefts.

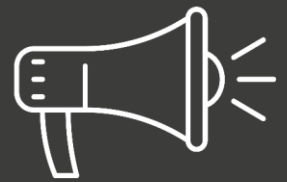

Further details and Images for reference:

- The vehicle, a white and black bodied (recently repainted from blue) is a Mercedes Atego HGV registration number **YF65 TDV** fitted with a crane arm.
- This vehicle has been involved in a series of attempted thefts and travels considerable distances around the Home Counties to steal.
- The driver, a white male who spoke with a Northern accent, was smartly dressed in the appropriate PPE. When confronted on occasions he became very aggressive and threatening.
- He was very confident and spoke with authority stating he was the contractor to collect the scrap.
- In all cases he has called for persons by name hence a degree of previous homework had been undertaken.

Action to be taken:

- All Site managers to make their staff aware of this Bulletin and advise staff to be cautious.
- Under no circumstances is this vehicle to be allowed on site.
- If this vehicle arrives at a Southern Water site, please contact your local police on 101 or 999.
